DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Claim 19 recites "the method as recited in claim 18". Note claim 18 is "a universal meta model" comprising "means". Correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not disclose or make obvious a universal meta model for creating tools for other meta models including means for representing varied and unanticipated composite relationships between classes of objects or virtual recursive relationships between classes of objects, receiving edit commands and altering data formations in conformance with validation constraints of said universal meta model, in combination with all the limitations recited in claims 2, 17, 18.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Deffler et al (US 6,601,023) teach method for impact analysis of a model.

Art Unit: 2163

Jenkins (US 6,029,169) teaches universal software structure for representing model structures.
